### PROHIBITION AND THE NEGRO

The prohibition question has reached an acute atage in the Congress of the United States, as indicated by the desperately hystorical struggle of the anti-prohibition forces to defeat the

Beery appeal to reason and imagination has been made such as. "Confiscation of Property," "Personal Liberty," "The Unem-ployed," and "Deconstitutionality." These arguments have been made, as an appeal to reason, by the best, brain in that greet law making body:

When reason fulls men have learned to appeal to projudices. The anti-prohibitionists, having failed to convince their opponents Prejudice. They have threatened to an Appeal to Rackel Prejudice. They have threatened the South with "the enforcement of the Fourteenth Amendment to the Federal Constitution," which enferenchied the Negro. In the days of human plavery in this country, it was lawful barter sed sell human plavery in this country, it was lawful barter sed sell human beings, but in this enlightened day the sabres of the highest law remaining body of the natival scoupting er rights of millions of its fellow beings as so much stock-in-and to further their own selfath ends.

There is much cause for anxiety and nancet on the part of millions of American Citizens. The Negro has been the last to compain. He has been shut out of this councils where the truth is ease, but thank God that truth, here and there, gets a hearing, a see more and more that camouflage and insincerity have been a roles played by cur so called friends; that the rights of the near are betrayed by those whom they have trusted.
